[Work Portfolio](#) 

As an innovative website developer who adapts quickly to new technologies and environments, I am seeking front-end, back-end, or full-stack opportunities developing scalable, user-centric web experiences.

SKILLS AND ABILITIES:

Programming Languages: PHP, HTML, CSS, Sass, jQuery, JavaScript

Tools: Visual Studio Code, NPM, Figma, Adobe Creative Suite, GitHub, Bitbucket, Asana

Content Management Systems: WordPress, Shopify, HubSpot, EpiServer

EXPERIENCE:

Junior WordPress Developer | JDA Worldwide, Indianapolis, IN

APRIL 2023 — MAY 2025

- Built and enhanced web applications such as new sites, prototypes, and landing pages that aligned with client objectives and compliance standards
- Leveraged modern front-end technologies (Flexbox, CSS Grid) and JavaScript tools (Node, AJAX, Slick Slider, Gulp) along with WordPress solutions (block themes, ACF, REST API, Gutenberg, Elementor, hybrid/classic themes) to build robust, custom web solutions
- Used a variety of CMS platforms to create web experiences
- Adhered to SEO best practices and executed object-oriented programming development techniques
- Managed domain configurations, DNS records, and server settings across various platforms such as GoDaddy, Wix, WP Engine, and Flywheel to ensure seamless website deployment/operation

Full Stack Web Developer Intern | TutorDudes, Remote

JANUARY 2022 — MAY 2022

- Implemented and maintained designs for TutorDude's website TDULTRA, a real-time communications platform connecting students and teachers
- Managed content for pricing plans, product information, and access pages
- Contributed to the development of web conferencing and file-sharing features within TDULTRA, utilizing HTML, CSS, jQuery, and Node.js

Web Designer | Indianapolis Urban League, Indianapolis, IN

FEBRUARY 2020 — SEPTEMBER 2022

FEBRUARY 2020 — SEPTEMBER 2022

- Assisted the Director of Fund Development and Marketing with re-branding the website and graphic development for agency media
- Used WordPress to create and present designs, edit existing channels, and prepare information for presentations

EDUCATION:

Bachelor of Science: Media Arts and Science

IUPUI School of Informatics and Computing

MAY 2022
